

purchase invoice solutions

Fitek provides a full solution for digitizing all purchase invoices.

We process all incoming invoices and prepare them for your accountant's confirmation, which is handled online with the push of a button.

Fitek's purchase invoice solution saves you 4 euros* on every purchase invoice you handle

Savings already take effect after processing 100 or more purchase invoices.

Key benefits:

- faster and cheaper than the traditional paper-based system
- no more dull purchase invoice entering — it's done automatically
- easy to search — you'll find e-invoices within seconds
- simple and user-friendly
- fewer entry errors, increasing the quality of data
- speed — the process of handling invoices will be substantially faster

Target group:

companies and organizations that process more than 100 purchase invoices per month

References:

- public sector — government of Estonia, municipal governments, universities
- all leading banks
- all leading telecoms
- utility providers
