

e-school

E-school is a supportive e-solution for teachers, pupils and parents which enables the development of high-quality education.

E-school is accessible through the web, mobile apps, and SMS messages.

How our system works:

Accomplishments:

- student school absences reduced by 30% in 5 years
- 80% fewer school dropouts
- 50% less administrative work for teachers, saving on average 45 minutes a day
- 2 full working days per month freed for teaching time
- notable increase in parental involvement – parents monitor up to 93% of grades and 87% of homework

Key benefits:

- eliminates paper-based administration
- accessible anywhere, 24/7
- increased transparency: everyone has access to the same up-to-date information

- all teachers can edit and enter information at the same time – no more fighting over record books!

Target group:

schools, municipalities' education departments, education ministries
