

IT support for mergers and acquisitions

„Solina Nordic was on a very tight schedule to move all Scandinavian organisations to single authorization solution and to consolidate various e-mail platforms to Office 365. Thanks to Primend, we achieved that target in two months with no disruption to our business.“

Solina Group
Heiko Niit
Nordic Area ICT Manager

How do we do it?

Key benefits with us:

- shorter transition period
- every employee can quickly resume business as usual
- company will preserve data, retain employees, and minimize instability during transition

Primend key competencies:

- speed of execution
- technically experienced specialists
- foreseeing of main transition problems

Target group:

- companies in the process of mergers and acquisitions, a 20% a year growth sector
- international companies creating local branches
- consultant companies specializing in mergers and acquisitions

References:

- Solina Group
- international companies

keep your data and your employees during a merger or acquisition – we'll make the IT transition period short and seamless

Our IT support for mergers and acquisitions helps keep the IT transition period short and well-organized.

When companies are in the process of merger or acquisition, it is important to keep IT systems working. Employees need fully functional e-mail and sign-on systems to remain productive.
