

### KEY ECOSYSTEM PARTNERS INCLUDE

- Banks: Swedbank, SEB Bank, Luminor Bank, Citadele Bank, LHV Bank, Šiaulių Bankas, Coop Bank, BigBank
- Telecom operators: Telia, Elisa, Tele2, Bite
- Public sector: services in Estonia, Latvia, Lithuania, and Belgium at high assurance levels (LoA high)

Digital public services, cross-border business, and regulated online transactions all depend on one foundation: trust. For governments and organizations bringing essential services online, this makes the choice of identity partner critical: the technology must combine security, legal trust, compliance, and everyday ease of use.

For more than 25 years, SK has helped build the trusted identity backbone behind Estonia's digital society and the wider Baltic eID ecosystem. Today, our high-assurance services support more than 5 million users and over 1,500 organizations with authentication, legally binding electronic signatures (QES), verified data exchange, timestamping, and electronic seals.

For governments and organizations looking for a proven identity partner, this experience provides a strong foundation for trusted digital services.

### WHAT YOU GAIN FROM WORKING WITH SK

- **Trusted user reach at scale.**

Enable secure access to public and private digital services through identity tools people already know and trust.

- **Regulatory confidence.**

Support compliance with eIDAS, PSD2, GDPR, AML, KYC and other trust, identity and data requirements.

- **Lower friction, higher conversion.**

Combine strong assurance with smooth user experience across digital journeys.

- **Infrastructure for national and cross-border digital services.**

Build public and private sector services on proven identity and trust infrastructure.

- **Future-ready digital trust.**

Prepare for EUDI Wallets, verified attributes, legal person identities, privacy-preserving transactions and Post-Quantum Cryptography.
