

# enterprise resource planning

We consult and deliver Enterprise Resource Planning solutions that save money and create a competitive advantage for your business.

Enterprise Resource Planning ERP offers smart e-solutions for:

#### Key advantages:

- raise your business competitiveness on a global scale
- create new, smarter jobs
- find new ways for more effective business management through changing organizational and business processes

#### Direct positive effects:

- increased revenue with a focus on more profitable actions, excluding unprofitable customers and products
- lower costs in purchase processes
- optimized workforce size
- better warehouse management

#### Target group:

- companies with 50-250 employees
