minutes

digital 24/7 business register

In 2015, a world record was set by Oman, where the fastest new company registration was completed in just 1 minute and 6 seconds.

Lightning quick company registration is a major ingredient in the ease of doing business and goes a long way to boost a country's investment climate. For governments, it drastically reduces costs and minimizes risks.

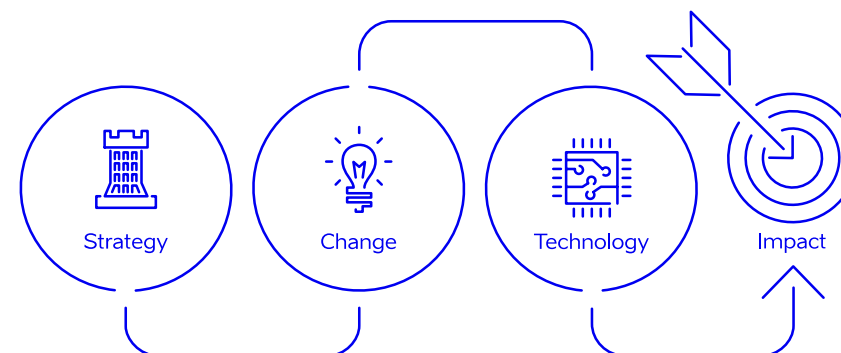

A Digital 24/7 Business Register can serve as a launching point for closely related e-government services such as Digital Business Reporting, Digital Public Announcements, an integrated obligations register and business activity supervision. It can also be developed into a full-service Business Portal, serving people and government agencies around the clock.

Targets

- Ministers of economy
- National business associations
- Economic development advocates

Key benefits:

- Easier to do business
- Attractiveness to entrepreneurs/investors
- Accelerated economic growth
- Reduced bureaucracy and administrative burden
- Can be integrated into a broader online Business Portal
