e-Tax

RIM Tax is a product for IT reform and modernisation of inland revenue-collecting administrations. The platform supports TADAT assessment, tax policy and administration reforms planning, changes in management program design, and implementation.

RIM Tax is a complete digital tax administration platform, enabling collection to be quickly improved and the results to be demonstrated as early as in the first two years of the program. It incorporates **RIM Audit**, a risk-based approach toward audit activities in the area of tax collection.

Key benefits:

- Complete digital tax administration
- Fast improvement of tax collection
- Increased compliance
- Intelligent risk management
- Superior risk mitigation

Targets:

- Ministries of Finance
- Tax administrations
