

# Attract global investors and boost global entrepreneurship rankings

by B.EST Solutions

Transform your country into a hub for global trade and investment with mResidency, a revolutionary solution designed to connect governments with entrepreneurs and investors from around the world. By offering remote access to digital services and infrastructure on par with what is provided to citizens, mResidency makes location-independent trade, investment, and business management a reality.

## FOR GOVERNMENT

### Improved Economic Growth

Digital business operations and global transactions fuel economic development.

### Costs Savings

Digital processes reduce the need for physical infrastructure and manual labour associated with traditional administrative tasks.

### Enhanced Competitiveness

Opening up new avenues for increasing economic competitiveness on the global stage.

## FOR BUSINESS AND DIASPORA

### Location-Independence

Set up and run your business from anywhere in the world.

### Seamless Operations

Establish a company online within a few hours, enjoy the seamless business operations from day one.

### Leverage Everything Digital

Access the digital services of an advanced ecosystem, from a robust digital identity to digital tax and banking.

## WHY CHOOSE MRESIDENCY?

### Remote Business Enablement

Create opportunities for foreign investors and global entrepreneurs to seamlessly establish and run businesses from anywhere.

### Digital Accessibility for Diasporas

Reconnect with your diaspora by enabling them to contribute to the economy remotely.

### Global Competitiveness

Improve your nation's visibility and reputation as a progressive, business-friendly destination.

### Simplified Investment Process

Enable investors to manage businesses, banking, taxes, and other services without geographical constraints.

# mResidency Success in Azerbaijan

The first  
mResidency  
program  
in the world

## mResidency

**mResidency** has been launched in **Azerbaijan** as a Public-Private Partnership (PPP) project between B.EST Solutions and the Center for Analysis of Economic Reforms and Communication, with the support of 79 diplomatic embassies of the Republic of Azerbaijan issue mResidency worldwide.

The mResidency program builds on the innovative success story of Estonia's e-Residency, launched in 2014. However, Azerbaijan decided to take a different approach, eliminating the need for the physical delivery of eID cards to eResidents. Instead, Azerbaijan developed mResidency, a **fully digital remote onboarding** system based on **eSIM-powered Mobile-ID**.

The ceremonial inauguration of mResidency took place during the "Digital Trade Hub of Azerbaijan" conference in 2018, organised by the Center for Economic Reforms Analysis and Communication under a presidential decree.

The launch of mResidency was not just an economic milestone but a symbolic event emphasising global cooperation. This initiative brought together key stakeholders, representing Azerbaijan's vision of fostering digital diplomacy and cross-border economic growth.

## B.EST Solutions—the right partner for building digital ecosystems

B.EST Solutions provides and operates future-ready digital identity solutions, alongside other robust e-governance foundations. Since 2010, we have been a trusted partner in delivering complex digital transformation programs that shape secure and connected digital societies.

**mResidency by B.EST Solutions** offers governments a transformative tool to attract global investors, facilitate seamless cross-border trade, and create thriving digital economies. By embracing **mResidency**, your country can open its doors to the world and build a sustainable future for entrepreneurship and investment.

Make your nation a beacon for **remote trade, investment, and innovation** – one mResident at a time! **Contact us today** to discuss how we can support you on this journey.
