professional banking services to meet the needs of your customers

tieto EVRY

EasyFS® e-banking and leasing

Future of core banking

All-in-one core banking solution EasyFS® is designed for financial institutions and credit providers to support their banking services for both corporate and private customers.

EasyFS® is a core banking software designed as "plug and play" solution with a possibility to add netbank, leasing, factoring and trade finance modules.

Leasing and Lending

EasyFS® Leasing is a solution designed to support any leasing provider throughout the life-cycle of a leasing product. It is easily accommodated to be a fully functional vendor-financing platform with proper origination handling from different points of sale.

EasyFS® Leasing module offers customer-centric and and personalized services for private and corporate leasing customers. We offer professional service support, consultancy and technical assistance to help you with your everyday tasks.

Key benefits

• Rapid time to market
• Low total cost of ownership
• Professional support services
• Continuous development and regular updates
• Focus on high quality
