

At Gofore, we bring new technologies from the drawing board into daily use. We help organisations transform, stay current in the ever-changing environment, and capitalise on new opportunities. Together, we build an increasingly functional future.

Gofore Estonia is a competence centre for international activities around digital transformations and e-Governance solutions.

SERVICES AROUND DIGITAL TRANSFORMATION

We use a patented Gofore Digital Maturity Model. Together, we can evaluate your situation and draft the next steps in just two days!

EXAMPLES OF E-GOVERNANCE SOLUTIONS

X-Road — we are the leading X-Road Technology Partner.

Contact us if...

- you are considering X-Road!
- you feel excited about applying X-Road to your individual needs!
- you are running X-Road version 5 and need to update it to the latest version!

Cloud — 10+ years of experience and strong partnerships with leading Cloud providers AWS, Azure, GCP.

Data & AI — we have utilised AI for creating proactive citizen-centric services.

With us, you can clarify and realise your vision for the digital society, even via remote collaboration!
